## NETWORK ENGINEER

### PROFILE

My science school and two years in a preparatory class gave me a solid grounding in computer networking. My school emphasizes active teaching, which enabled me to put theoretical concepts into practice and develop my teamwork skills through projects such as setting up a network infrastructure. Thanks to my work-study program, I was able to expand my knowledge by being in direct contact with customers and carrying out complete network infrastructure implementation projects.

### EDUCATION

- **IT WORK-STUDY**  
*Engineer School CESI  
Villeurbanne, FRANCE  
2022-2025*
- **SCIENCE A-LEVEL**  
*High School Germaine-Tillion  
Sain Bel, FRANCE  
2017-2020*
- **PREPARATORY CLASS**  
*Engineer School CESI  
Villeurbanne, FRANCE  
2020-2022*

### EXPERIENCE

- **COMPUTER NETWORK INTERNSHIP**  
*IT department of  
Lyon department  
April 2022 -  
June 2022*
  - Automation of cybersurveillance processes (PowerShell, Python...)
  - Project management
  - Create SQL queries to generate statistics
  - Data processing with maps and diagrams
- **COMPUTER NETWORK WORK-STUDY**  
*CERESYS  
September 2022 -  
April 2025*
  - Project management
  - Implementation of network architecture
  - Supervision (PRTG)
  - Advanced IT support
  - Network architecture diagram
  - Configuration of branded equipment (HPE, Stormshield, Aruba, Synology...)

### SKILLS

- network infrastructure
- Team management
- Communication

### HOBBIES

- Learn
- Sports
- IT

### LANGUAGE
